132kV Cable Jointer

Company: Excalon Limited
Position: Experienced 132kV Cable Jointer
Employment: Full-Time / Contract opportunities available
Location: UK – Nationwide projects

The Role

Excalon Limited is looking for an **experienced 132kV Cable Jointer** to join our growing EHV cable installation team.

We are looking for a highly competent jointer with **proven hands-on experience working on 132kV XLPE cable systems**, capable of carrying out jointing and termination activities to the highest standards of workmanship, safety and quality.

The successful candidate will work across Excalon's high-voltage infrastructure projects throughout the UK.

Key Responsibilities

- Installation of **132kV cable joints and terminations**
- Preparation and jointing of XLPE EHV cable systems
- Installation of outdoor, GIS and transformer cable terminations
- Installation of straight joints and associated bonding equipment
- Working within joint bays, link box chambers and substations
- Cable preparation, sheath removal, insulation preparation and component installation
- Following manufacturer-specific jointing procedures and specifications
- Completing jointing documentation, quality records and installation check sheets
- Maintaining extremely high standards of cleanliness and workmanship
- Working closely with site managers, engineers and cable installation teams
- Ensuring all works are completed safely and in accordance with project RAMS and client requirements

Essential Experience

Applicants must have:

- **Previous 132kV cable jointing experience**
- Proven experience working with **EHV XLPE cable systems**
- Experience installing 132kV joints and/or terminations
- Strong understanding of cable preparation and EHV jointing practices
- Ability to work accurately from manufacturer jointing instructions
- Excellent attention to detail and quality
- Strong understanding of electrical and site safety
- Ability to work independently and as part of an EHV jointing team
- Willingness to travel throughout the UK when required

Experience with major EHV cable system manufacturers would be highly advantageous.

Desirable

Experience or certification with manufacturers/systems such as:

- Pfisterer
- TE Connectivity / Raychem
- Nexans
- NKT
- Prysmian

Previous experience working on **DNO, IDNO, National Grid or transmission/distribution projects** would also be advantageous.

What Excalon Offers

- Excellent rates of pay, dependent on experience and qualifications
- **DNO authorisation and ongoing competency support**
- Support with maintaining and developing relevant **132kV authorisations**
- Long-term opportunities within our growing EHV division
- Interesting and technically challenging 132kV projects
- Opportunities for further **manufacturer training and certification**
- Continued professional development and progression
- Work across major UK electrical infrastructure projects

Apply

If you are an experienced **132kV Cable Jointer** looking for your next opportunity with Excalon Limited, we would like to hear from you.

Please apply with your **CV and details of your 132kV jointing experience**, including the cable systems and manufacturers you have previously worked with.
