Experienced Jointers Mate / Trainee Cable Jointer

Company: Excalon Limited
Position: Experienced Jointers Mate / Trainee Cable Jointer
Employment: Full-Time
Location: UK – Nationwide Projects

The Role

Excalon Limited is looking for an **experienced Jointers Mate / Trainee Cable Jointer** to join our growing EHV cable installation and jointing team.

This is an excellent opportunity for someone with experience working within the **high-voltage cable industry** who wants to develop their skills and progress towards becoming a fully qualified **EHV Cable Jointer**.

The successful candidate will work alongside experienced cable jointers on projects throughout the UK, assisting with the installation, jointing and termination of high-voltage and extra-high-voltage cable systems.

Due to the nature of our projects, applicants must be **happy to work and stay away nationwide when required**.

Key Responsibilities

- Assisting experienced cable jointers with **EHV cable jointing and termination works**
- Preparing joint bays, termination areas and work environments prior to jointing
- Assisting with cable preparation and installation
- Supporting the installation of straight joints, terminations and associated bonding equipment
- Working within joint bays, link box chambers and substations
- Preparing and maintaining jointing tools and specialist equipment
- Maintaining the extremely high levels of **cleanliness and contamination control** required during EHV jointing
- Assisting with materials, components and jointing kits
- Following manufacturer procedures and instructions under the supervision of experienced jointers
- Completing relevant site and quality documentation
- Working closely with cable jointers, site managers and engineers
- Ensuring all works are completed safely and in accordance with project RAMS and client requirements

Essential Requirements

Applicants must have:

- Previous experience working as a **Jointers Mate, Cable Jointer's Mate or Trainee Cable Jointer**

- A strong interest in progressing within the **HV/EHV cable jointing industry**
- Good practical and mechanical skills
- Excellent attention to detail
- A strong understanding of site safety
- Ability to work effectively as part of a specialist jointing team
- Willingness to learn and undertake further technical and manufacturer training
- **Full UK driving licence**
- **Willingness to travel and work nationwide**
- Flexibility to work away from home when required

Preferred Experience

Previous **EHV experience is preferred**, particularly candidates who have worked on:

- 66kV and/or **132kV cable systems**
- XLPE cable systems
- EHV cable installation projects
- Cable joint bays and link box chambers
- Substation environments
- DNO, IDNO or transmission network projects

Experience working alongside jointers using systems from manufacturers such as **Pfisterer, TE Connectivity / Raychem, Nexans, NKT or Prysmian** would be advantageous but is not essential.

What Excalon Offers

- Competitive rates of pay, dependent on experience
- **Structured progression towards becoming an EHV Cable Jointer**
- Hands-on experience working alongside experienced **132kV Cable Jointers**
- **DNO authorisation and ongoing competency development**
- Opportunities for **manufacturer training and certification**
- Continued technical training and professional development
- Long-term career opportunities within our growing EHV division
- Exposure to major HV and EHV infrastructure projects
- Nationwide project experience
- Opportunity to develop a long-term career within the specialist EHV cable jointing industry

Apply

If you are an experienced **Jointers Mate or Trainee Cable Jointer** looking to progress your career within the EHV cable industry, we would like to hear from you.

Please apply with your **CV and details of your previous HV/EHV cable experience**, including any cable systems, voltages and manufacturers you have previously worked with.
